r Revised from previously published data. Revisions to trade data based on Bureau of the Census, Historical Summary 1989-93 and 1993-97.

*Category changed to include reaction engines, other than turbojets--except missile and rocket--and their parts. Camshafts and crankshafts have been added to both engine categories.

no=number, mt=metric tons (hundreds of kilograms)

NOTE: Totals do not correspond to SIC-based trade statistics because of slightly broader coverage. Detail may not add to totals due to rounding.

Data shown for certain products are not comparable to data before 1989 due to category changes made under the Harmonized System.
